

Job Title: Sanitation Specialist

About Sanitation Specialist: We are your most reliable partner in Food Safety Sanitation offering transparent onsite management and complete sanitation solutions. The great thing about Sanitation Specialists is that our company cares about its employees. We want you to know that we see all the hard work, and because of this, our company offers competitive wages and regular opportunities for performance reviews and pay rate increases! You could be receiving a raise as soon as you have passed your first 90 working days!

Job Description: We are looking for hard working individuals that have a commitment to customer service, great work ethic, and always work with safety as priority. Do you have a positive attitude and outlook on continuous change? If you are seeking to grow, learn, and strive as a team player we want you to join our team.

Primary Duties:

- Detailed sanitation and up-keep of the facility, ensuring that all processing equipment is properly cleaned and sanitized to established standards to prepare for client to process their product
- Maintain facility and surrounding area in compliance with Good Manufacturing Practices and recognized Food Safety Standards
- Removal of all trash and product/soil from plant; cleaning of floors, walls, ceilings
- Follow directions of the Sanitation Supervisor and Leads; duties to be directed by both
- Follow all Sanitation Equipment tool and equipment guidelines
- Wear specified company provided protective gear at all times

Required Skills:

- Knowledge of chemical usage, proportions and regulations
- Decision making/problem solving skills and listening skills
- Knowledge of sanitation equipment and tools
- Knowledge of GMPs, Food Safety and Sanitation Procedures
- Ability to read and understand Safety Data Sheets (SDS)
- Ability to handle multiple tasks in a fast-paced environment
- Ability to handle difficult and/or sensitive situations
- Willing to learn and adhere to proper procedures in safety when working with moving machinery
- Willing to accept change and work in a team-based environment

Physical/Other Requirements:

- Required to lift up to 50 lbs (garbage removal) and/or up to 70 lbs (if using power hoses)
- Exposure to chemical cleaning solutions (chlorine, acid and detergents) and adherence to safety protocols with these chemicals
- Perform repetitive tasks: stand during most of the shift, walking, stooping, bending, reaching and crouching, climbing up/down stairs and ladders
- Work in cold and wet environment (varies; approximately 34 degrees)
- Must have reliable transportation to arrive to/from work site
- Must be flexible with schedule, as shift times could change at customer's request, weekends and overtime may be required or part of the normal work schedule

Ameri-Kleen, Inc and its subsidiary Sanitation Specialists are proud to be an Equal Opportunity Employer
